MUHAMMAD UMER FAROOQ

ABOUT ME

Motivated and detail-oriented web developer with experience in developing and customizing live projects. Proficient in HTML, CSS, PHP frameworks like Laravel and CodeIgniter, and JavaScript. Skilled in WordPress customization, including theme and plugin development, to deliver tailored, high-performance solutions. A quick learner committed to staying updated with emerging web trends and technologies. I aim to contribute to the organization's growth by leveraging my technical skills, creativity, and problem-solving abilities to deliver responsive and user-friendly websites, and me.

WORK EXPERIENCE

SCRIPT FOREVER   **Jan 2023 - CURRENT**

FULL STACK DEVELOPER

Developed dynamic web applications using JavaScript, jQuery, and PHP frameworks (Laravel), along with extensive WordPress theme and plugin customization. Worked on numerous Laravel projects, implemented and consumed APIs, and deployed applications on live servers. Resolved real-time issues, ensured cross-browser compatibility, addressed user feedback, and collaborated with cross- functional teams to successfully meet project requirements.

THINKSBS COMPANY   **July 2022- DEC 2023**

PHP DEVELOPER

Developed and deployed web applications on live servers using JavaScript, jQuery, and PHP (CodeIgniter). Resolved numerous compatibility and performance issues on live environments and collaborated with teams to meet project requirements. Additionally, worked extensively on problem-solving and debugging in Laravel and Core PHP while contributing to the success of various projects within the company.

FREELANCER FULL STACK DEVELOPER

2021 - CURRENT

Worked on freelancing projects involving API integration, Laravel and CodeIgniter development, PHP programming, front-end development using HTML and CSS, WordPress theme and plugin customization, and implementing dynamic functionalities with JavaScript, jQuery, and AJAX
